Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 January 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

This office action is in response to the application filed January 20, 2004.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 1 rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The metallic layer formed on the backsurface of the chip with an adhesive between the metallic layer and base is critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). The features are critical because applicant original disclosure page 4 and 7 indicates that it is needed in order to achieve the objects of the invention and to firmly attach the chip to the base.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and are rejected under 35 U.S.C. 102(b) as being anticipated by Alfaro et al. (U.S. 10/761,835)

Alfaro (Fig 2) discloses a digital micro-mirror device (DMD) packages, comprising: a base substrate (42) having a top (portion contacting item 34) surface and

a bottom surface (i.e. lower portion of 42); a metallic layer (34) formed on the top surface of the base substrate (i.e. portion closest to item 14), a metallic adhesive (50) formed on the metallic layer; a semiconductor chip (24) mounted on the metallic adhesive, the base substrate electrically connected with the semiconductor chip (i.e. leads, 14); one or more mirrors mounted on the semiconductor chip (Col.3, Lines 4-7; dmd) a hermetic sealing means (30) covering the semiconductor chip including the one more mirror on the chip; (cl. 2) that further comprises a heat sink attached integral with the metallic layer on the bottom surface of the base substrate (i.e. lower portion 42).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James M. Mitchell whose telephone number is (571) 272-1931. The examiner can normally be reached on M-F 8:00-4:00.
